

Announcing **ARCHITECT KNOTTY BEVEL SIDING**

**Exclusively from Members
of Western Red Cedar
Lumber Association**

This siding delivers all the lasting beauty and performance that premium Western Red Cedar siding is noted for – in a new grade that has been created for the '90s and beyond.

These features answer the needs of builders and homeowners who want a lifetime siding that offers the timeless prestige of Western Red Cedar. Designed for attractive resawn face exposure, with no characteristics to cut out. Architect Knotty Cedar siding speeds installation time and is especially well suited for factory priming or finishing. It is available plain, rabbeted or finger-joined in the sizes shown.

NEW PRODUCT FOR PREMIUM PERFORMANCE

Western Red Cedar/Siding Supplement

Premium Performance

FINGER-JOINED BEVEL SIDING

New finger-joined Western Red Cedar siding provides the prestigious appearance and all-weather performance of premium Cedar. Virtually invisible, precision-fitted joints are actually stronger than the surrounding fiber. Builders will enjoy the convenient long length tally and faster installation with fewer field joints.

Long lengths speed installation

Virtually invisible join

Cedar Pre-Assembled Through Today's Technology

Join is stronger than surrounding fiber

Kiln Dried

Plain or Rabbeted

Available Factory Primed

Choice of Clear and Knotty grades in three surface textures:

Smooth

Resawn

Combed

Finger-joined siding is offered in lengths up to 16' which speeds installation.
